### Democratic Platform.

RESOLVED. First, That the Dem octacy of Ohio, in convention re affirms its platform of 1883 as follows: It indorses the principles of the party expressed in previous State and National platforms in re-gard to personal liberty, the true functions of the government, and as embraced in political creed, expounded by the founder of the Democratic party, Thomas Jefferson. The application of these principles to our present condition demands the purification of the public service, the punishment of the robbers of the public treasury, the equalization of all public burdens, the arrest of the profligacy and extravagance that corrupt the administration of public affairs, and a total change in the policy that so long has been pursued by the Republi-can party favoring individual and class interests at the expense of the laboring and wealth-producing peo p'e of the country; and we renew our declarations for stable money, the gradual extinction of the public debt and the payment of penows and orphans.

Second, We favor a tariff for revenue, limited to the necessities of the Government, economically administered and so adjusted in its app'ication as to prevent unequal burdens, encourage productive indus-tries at home, afford just compensation to labor but not to create or fos'er monopolies.

Third, That the just demands of the wool growers of the State and country for an equitable readjustment of duties on wool (unjustly reduced by a Republican Congress) so that the fadustry shall be fully and equally favored with other industries, ought to be complied with, and we endorse the action of the Democratic members of the Ohio delegation in Congress in their effort to accomplish this re-
